

BEAUTY NECTAR

DESCRIPTION

Beauty begins from within, a place where vitamins, nutrients, and essential fatty acids can do their work. Modere Beauty Nectar is an innovative liquid nutritional formula featuring a multi-faceted blend and a range of nutrients to support you.

The beauty of this formula lies in the juxtaposition of ingredients and technologies. It features biotin, zinc, acai, acerola, white tea, and hydrolysed whey protein. Modere Beauty Nectar unleashes a deluge of nutrients into your body.

FEATURES & BENEFITS

- Features a carefully selected profile of vitamins.
- Vitamins and other key nutrients are suspended in a blend of rich juices, including acai and Barbados cherry, giving this formula nutritional potency.
- Features the purple super-fruit acai. The fruit of *Euterpe oleracea*, commonly known as acai, is born from aeons of evolution, and nature designed it to deliver a boost.
- Delicious tasting, convenient format.

BEAUTY NECTAR

KEY INGREDIENTS

A carefully selected profile of vitamins in Beauty Nectar includes:

- **Biotin** — A water soluble B-Vitamin which contributes to the maintenance of normal skin and hair.
- **Zinc** — Zinc has a wide range of functions including contributing to the maintenance of normal skin, hair and nails.
- **Thiamin** — Also known as Vitamin B1, thiamin contributes to normal energy yielding metabolism.

A combination of the principles of peptides, precious earth essences and defense factors:

- **Whey protein hydrolysate** — Provides precursor molecules of glutathione.
- **Precious Earth Essences** — A combination of natural treasures - extracts of rosemary and aloe vera gel known for an array of phytonutrients and flavour.
- **Defence Factors** — A blend based around zinc which contributes to the protection of cells from oxidative stress and also includes botanicals like acai berries, white tea extract and acerola. These botanically rich ingredients naturally contain substances known as phyto-chemicals, polyphenols and flavonoids.

A fruit juice blend produced using Modere's preferred production method. Key components include:

- **Acai berries** — This dark purple fruit is known for its unique phytonutrient profile especially the anthocyanins which are the source of the purple pigment.
- **Acerola** — Also known as the Barbados cherry acerola is a fleshy, red fruit.
- **Aloe vera blend** — Aloe vera contains unique polysaccharides traditionally appreciated for their immune-supporting effects.
- **Juice Blend** also includes red grape, white grape, and blueberry contributing rich flavour.
