

CONDITIONER ALL HAIR TYPES

DESCRIPTION

Modere Conditioner All Hair Types is a lightweight, moisturizing formula with keratin amino acids and panthenol that leaves hair soft and silky without weighing it down. It's effective without being heavy and light enough to use every day. Packed with nutrients and protein building blocks, Modere Conditioner All Hair Types leaves your hair soft, manageable and tangle free— basically all the things you've been praying for.

Modere Conditioner All Hair Types is a creamy formula made with keratin — the very thing hair is made of. Packed with nutrients, our conditioner helps strengthen and moisturize your hair, improving the look and feel. Panthenol attracts moisture from the air and quenches dry, thirsty hair leaving your locks touchably soft. Dicytyldimonium chloride is an excellent conditioning agent that prevents tangles for smooth, silky hair. For best results, use Modere Shampoo All Hair Types before conditioning for the ultimate hair-nourishing experience. Your hair will thank you. For the ultimate 1-2 punch, use Modere Shampoo All Hair Types before conditioning.

FEATURES & BENEFITS

- Provides powerful conditioning and moisturizing.
- Improves the look and feel of hair for both wet and dry combing — don't fear the hairbrush anymore.
- Increases manageability and nourishes all hair types — equal opportunist.
- Packed with hair conditioning nutrients—it's like the kale of hair products.
- Doubles as a leave-in conditioner when you need extra moisturizing.

CONDITIONER ALL HAIR TYPES

KEY INGREDIENTS

- **Keratin Amino Acids** - Made of the same protein building blocks that make up your hair. This ingredient helps to keep hair strong and pliable; hair that has been damaged by chemicals.
- **Panthenol** - A form of vitamin B5, it forms a smooth film on the hair's cuticle that allows hair strands to glide over each other, no tangles here.
- **Dicetyldimonium Chloride** - An excellent conditioning agent that helps detangle wet or dry hair, leaving your locks smooth and snarl-free
- **Stearalkonium Chloride** - An intense moisturizer that forms a protective barrier to trap in water to keep the hair silky and smooth.

INGREDIENTS

Water, myristyl alcohol, dicetyldimonium chloride, fragrance, hydroxyethylcellulose, cetyl alcohol, cetrimonium chloride, stearalkonium chloride, panthenol, keratin amino acids, phenoxyethanol.

FACTS

Directions

After shampooing, apply a generous amount and leave in for two to three minutes. Rinse thoroughly. You may also apply a moderate amount to towel dried hair, working from the ends to the roots. Since combing will now be much easier and take less time, go ahead and try one of those Pinterest-inspired hairstyles you've been wanting to try.
